Gamage's Clockwork and Mechanical Toys—*continued.*

The Two Horse Race consists of a stand supporting two jockeys on horses who, when the race is started, race round and round, passing and re-passing one another in such a manner that it is positively impossible to tell which will win until the race is over. With this game children can be kept amused for hours. It is strongly made and not likely to get out of order.
Price **10½d.** Larger Size, with four horses, **2/3** Postage 3d.

The Equestrienne.

The Equestrienne.—This, as the name implies, consists of horse galloping round a ring, as at a circus. Standing upon the back of the horse is a fairy, who, as the horse passes under the bar, sloops and then jumps, clearing the bar in a most clever manner, alighting upon the horse's back and stands balancing herself until the horse reaches the bar, when she again jumps, continuing to ride and jump until the horse stops, **10½d.** Post 3d.
